

APRIL LUNCHEON MEETING

“KCP&L’s Smart Grid Demonstration Project”

DATE: Friday, April 23, 2010

SCHEDULE: 11:00 a.m. - Registration
11:30 a.m. - Lunch
Noon - Program

LOCATION: KCP&L Energy One Center
1200 Main St., KCMO

COST: \$30 per person (member cost - \$20)

Luncheon sponsored by All Star Awards

Luncheon Location: Energy One Center is at 12th and Main in downtown Kansas City, Mo. You can enter the parking garage off Main between 12th & 13th Streets on the west side of Main. You’ll get a parking slip, which we’ll validate. REMEMBER WHERE YOU PARKED! Hundreds of folks have lost their cars in the garage. The garage is tight, so big trucks are not recommended. The room is on the main floor. Coming from the parking garage, press the button for the lobby. Get off the elevator and go through a set of rotating doors, go down the escalator and the room will be the last room on the right (facing Main Street). The large, glass, entry doors will say KCPL. As soon as you enter, keep to the left. The room is an enclosed glass room facing Main Street.

TOPIC/SPEAKER: Kansas City Power & Light was a recipient of ARRA Grant funding through the Department of Energy’s Smart Grid Demonstration Grant Program. The project will demonstrate the feasibility and benefits of deploying cutting edge utility and home energy use technologies. Find out how KCP&L will deploy this set of technologies and how they plan to positively impact the model for a Utility of the Future. Steven Gilkey currently holds the position of Senior Director T&D Engineering & Planning at Kansas City Power & Light (KCPL). Mr. Gilkey has been in various leadership roles at KCPL since 2003. Gilkey began his utility career over 25 years ago as an Electrical Engineer at Niagara Mohawk Power Corporation. He has held positions from engineer and field supervisor to director, and has progressed through leadership roles across upstate New York and the Mid-West.

Steve is active in many facets of the utility business and is involved in support organizations. He is on the Distribution Executive Committee of the Edison Electric Institute (EEI), and is on the Overland Park Chamber of Commerce Board of Directors.

Yes, I/We plan to attend the Luncheon Meeting!

Attendee: _____

Company: _____
