A CAREER IN THE ELECTRICAL INDUSTRY: SEPARATING FACT FROM FICTION

FICTION

The only jobs are for those who enjoy "hands-on, mechanically oriented" work.

FACT:

Whether you enjoy putting on the tool belt or prefer a different role, there are a multitude of different career paths in the electrical industry. Sales, architecture, engineering, operations, logistics and project management are just a few of the careers available in the industry along with becoming an electrician.

FICTION

Electrical Industry workers make lousy pay.

FACT:

Starting salaries for many positions exceed \$50,000/year.

FICTION

The Electrical Industry is for people who go to college.

FACT:

Whether you're starting your career after high school or plan to earn a college degree there are a variety of different career paths for degreed and non-degreed positions offering opportunities for endless success!

FICTION

Experience is required.

FACT:

Many companies hire entry-level employees and some offer intern programs for on the job training.

FICTION

There isn't opportunity for growth.

FACT:

The industry is always looking for quality people. It's a \$381 billion industry* that employs 1.9 million professionals* that continues to offer advancement opportunities.

FICTION

Companies aren't interested in hiring millennials.

FACT:

The electrical industry absolutely is! The industry hires people looking for rewarding career positions ranging from electrician, project management, sales, operations, logistics, specifications and more, that improve the community's quality of life.
