TIME: 2:00pm – 3:30pm

FORMAT: Zoom Webinar

TOPIC: Reading Electrical Constructions Drawings

Provide an overview of typical electrical construction drawings with explanations of standard symbols, legends, and schedules; associated with typical commercial projects. Explanations of branch circuits, equipment schedules, one-line diagrams and riser diagrams will be provided. It is intended to be an interactive review process.

- Panel Board Schedules
- Light Fixture Schedules
- Distribution Equipment Schedules
- Feeder Schedules
- Drawing Symbols
- General Notes
- Plan Notes

SPEAKER: Heather Eslick, Account Manager, ABB Electrification

Heather Eslick is an Account Manager for ABB Electrification, focused on commercial construction markets. She has been in the electrical industry for over 7 years. She began her career working for electrical distributors in the Kansas City area for 4 years. Seeking an opportunity to focus solely on sales and technical expertise, she applied for a sales role, was hired with ABB, formerly GE Industrial Solutions, and has been happily part of the ABB team for the last 3 years. Prior to her career in the electrical industry, she served 4 years on active duty as a military intelligence officer in the US Army. She served in Fort Carson, CO and completed a deployment to Iraq in 2011. Heather is married and has two smart and rowdy children, ages 8 and 4, two dogs, and (regrettably) a guinea pig. Though not originally from the Midwest, she has lived in Lee's Summit, MO for the last 5 years and has made Missouri her home.
